Volume 1 Issue 5

Doubt Your Doubts

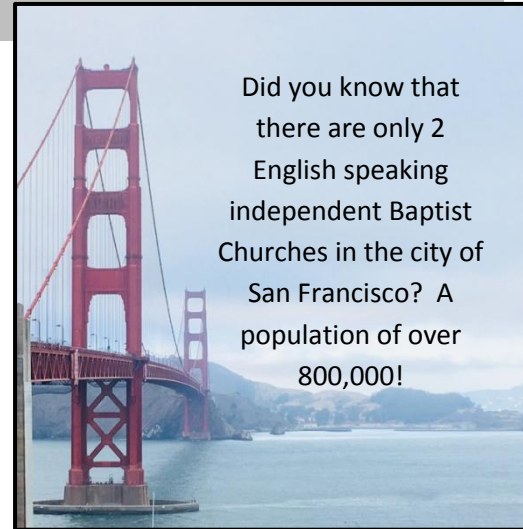

Often when looking at difficult situations in life, we find ourselves doubting our resources. Whether it is financially, socially, or even physically, we look around at our daunting circumstances and think to ourselves, “there is just no way this will all work out.” For us, San Francisco can be one of those circumstances. We have often doubted our ability to reach such a godless city for Christ. However, these thoughts only come when we have forgotten about the ultimate multiplier, God our Father.

In Judges 7, we read about Gideon and the Israelite army fighting off the Midianites. The Midianites numbered more than 100,000, and God only sent Gideon with 300 men! To any of us this would seem like insurmountable odds. The funny thing is that God was the one who dismissed thousands of Gideon’s men so that He could show it was His power that would win the victory not the number of men or their resources.

In August, along with presenting our ministry to various churches, we were able to take a survey trip to San Francisco to meet some of the local pastors. It was on this trip that God showed us what great works He can do with so little. There is just a handful of gospel preaching churches in a city that totals more than 800,000 in population; and yet, with so few, God is making a great impact. We cannot wait to be back in the City reaching the lost souls for God’s glory.

What circumstance do you have in your life right now that seems too great to overcome? Just remember, the same God that gave Gideon the victory, is the same God dwelling with you! So doubt your doubts, and reach some people in the power of Christ.

Love and Prayers , Jake Hali & Tekoa Woodfin

Did you know that there are only 2 English speaking independent Baptist Churches in the city of San Francisco? A population of over 800,000!

Met up with some of our family and shared our ministry at their church (Bethel Baptist near L.A.)

We would love to hear from you!
